## Microfilmed Census Records—2

National Archives Indian Census Rolls, 1885 – 1940. M-595. Located in Drawer 11 in the microfilm cabinet next to the reference desk.

These census rolls were usually submitted each year by agents or superintendents in charge of Indian reservations, as required by an Act of July 4, 1884 (23 Stat. 98). The information on the rolls varies to some extent, but typically includes the English and/or Indian name of the person, roll number, age or date of birth, sex, and relationship to head of family. Beginning in 1930, the rolls also show the degree of Indian blood, marital status, ward status, and place of residence. For certain years, such as 1935, 1936, 1938, and 1939, only supplemental rolls of additions and deletions were produced. Most of the 1940 rolls have been retained by the Bureau of Indian Affairs and are not part of this collection.

There is not a census for every reservation or group for every year. Only persons who maintained a formal affiliation with a tribe under federal supervision are listed on these census rolls.
